The Move to Visual. How this Mega Trend is changing everything

We are in the midst of colossal transitions spawned by the on-going digital revolution that has unleashed massive megatrends one of which is the transition from text based communications to visual. This trend was predicted by John Naisbitt, futurist and author of Megatrends and his most recent work Mindset.

Education

George Mason University
Masters International Business

Accomplishments

Vice President Innovation, Deutsche Telekom

My latest and most recent accomplishment is in regards to the co-founding of a successful Innovation practice inside large fortune 500 corporation. For six years I experienced the cultural dynamics of initiating, running and participating in an innovation lab inside a globally and culturally diverse environment. I am writing a book based on these experiences.

Testimonials

Sandra Nelson

“Andres Jordan’s keynote speech on anticipating market trends was a huge success. His style of delivery is friendly, passionate and inclusive, achieving the desired effect that a keynote speech should have: to stimulate and inspire new thinking. We will definitely have Andres back soon.”

Zahava Stroud

“Andres Jordan is a frequent speaker at our conferences. He has the right mix of energy and passion and is a compelling speaker and panelist. The digital transition has not been easy on the media industry and we will continue to work with Andres to bring fresh perspectives into the discussion.”

Peter J. Kale

Andres' rich, multicultural life experiences provided incredible insights about the nature and importance of culture as it relates to the creation and adoption of new ideas. His strategies for bridging the gap between different worlds were especially relevant for our own diverse enterprise, but above all it was his engaging manner that really won the crowd over and left us all with the inspiration to go forth and change minds.”
