

Andrew Henderson

Associate Professor, Department of Management at The University of Texas at Austin, McCombs School of Business

Austin, TX, US

Corporate governance, leadership and innovation, executive compensation, decision theory, change management, and strategy

Description

Andrew D. Henderson is an educator and researcher who looks at why great companies are superior performers, why some companies are better at fostering innovation than others, and the principles of effective leadership in the C-suite. He studies the factors that encourage and enable technological change, and he has looked at executive compensation and its impact on company performance and decision processes.

Henderson is an associate professor of management, and the J. Anderson Fitzgerald Centennial Faculty Fellow at the McCombs School of Business, The University of Texas at Austin. Previously, he taught at the Graduate School of Business at Columbia University, and was a project manager and R&D scientist with IBM.

His research areas are compensation, corporate governance, decision theory, organizational change and redesign, organizational design, and strategic management. Henderson is widely published among the top strategic management journals, and a frequently invited speaker, including multiple presentations at annual meetings of the Academy of Management.
