

Ben Rogers

Director, Technology Transfer & Scouting at MaRS Innovation

Toronto, ON, CA

Leading the development and implementation of commercialization strategies for novel therapeutics, diagnostics and implantable devices

Description

At MaRS Innovation, Ben directs Technology Transfer & Scouting, which provides on-site intellectual property identification, protection and commercialization services to several MaRS Innovation member institutions, including Holland Bloorview Kids Rehabilitation Hospital, Sunnybrook Health Sciences Centre and York University.

Prior to joining MaRS Innovation, Ben began his commercialization career with a dual internship at the Canadian Arthritis Network and Mount Sinai Hospital through the Canadian Institutes of Health Research's Commercialization Management program. He continued at Mount Sinai Hospital's Office of Technology Transfer & Industrial Liaison as a business development manager, where he was responsible for business planning, marketing and license negotiation for a portfolio of therapeutics and diagnostics technologies.
