Fire Someone Today, And Other Surprising Tactics for Making Your Business a Success

"Fire Someone Today" is what I learned building my own company. It's one of several lessons, include "Winning Takes 51%" and "Nobody Loves Your Baby Like You Do." These topics are the practical wisdom from long lunches with other entrepreneurs and from making lots of mistakes of my own. My talk is about making the right decisions in good times and bad and it is full of practical examples from real businesses. My presentations are strong on "things you can do tomorrow morning."

Fire Someone Today, And Other Surprising Tactics for Making Your Business a Success

My first book has a five star rating at Amazon.com, and was translated into Russian and Korean. I've spoken many times on the business lessons in this book -- all learned at the cost of much time and trouble!

Puget Sound Business Journal's 40 Under 40

It is a good thing I won this a few years ago; I no longer qualify.

Testimonials

Mark Coker

"The Best Presentation at TOC: My favorite presentation of the conference was from Bob Pritchett of Logos Bible Software, in a session titled, Network Effects Support Premium Pricing. I remember attending his presentation four years ago at the first TOC in San Jose, so I knew I didn't want to miss his presentation this time. They're doing amazing stuff at Logos." -- http://www.huffingtonpost.com/mark-coker/exploring-the-future-of-b_b_478846.html
