Green Activism

We all have a commitment to our planet. Some less obvious than others. How does one celebrate and reach everyone's stand without isolating, diminishing or leaving anyone out. Boise has reached millions of people and reported on and connected with their message on the web (GLiving.com), TV (Discovery/PlanetGreen) and across America in person (www.thefreedomfilm.com). Having led to over 100,000 people, Boise inspired and awakens the environmentalist in all of us, especially those who didn't know they didn't know they cared so much.
