

Christina Marsh Dalton

Associate Professor of Economics & Adjunct Appointment, Public Health Sciences, Wake Forest School of Medicine at Wake Forest University

Winston-Salem, NC, US

Dalton's research focuses on health economics, health care markets, public and private insurance, and the economics of public health policy.

Biography

Dalton's work is at the intersection of health economics and market organization. Her research focuses on improving health care by analyzing how markets for health care goods and services work. What influences whether firms offer insurance to their workers? How do the number and type of providers affect care that patients receive? These are just a few areas where Dalton's expertise can offer insights. Dalton can also comment on hospitals and markets such as nonprofit providers, insurance, rural healthcare, nursing homes, and hospice care. She is an expert on the economic impact of the Affordable Care Act and the impact of uncertainty and policy changes both regionally and nationally.

Areas of Expertise

Health Economics, Health Insurance / Affordable Care Act, Employer-based Health Plans, Economic Analysis, Health Plan Financing, Medicare / Medicare Part D, Health Care Markets
