

Doug Gouzie

Professor, Geography, Geology and Planning at Missouri State University

Springfield, MO, US

Dr. Gouzie's areas of expertise cover geology, environmental science, carbon sequestration and sinkholes.

Biography

A registered professional geologist, Dr. Doug Gouzie is a Professor of Geology and Director of Graduate Studies in the Department of Geography, Geology and Planning at Missouri State University.

He teaches geology and environmental courses, and his research interests include: carbon sequestration, environmental geochemistry of karst, environmental science, quantitative dye tracing of karst and sinkhole development and prediction. Dr. Gouzie serves as a statewide resource expert for sinkhole issues.

Industry Expertise

Education/Learning, Environmental Services, Research

Areas of Expertise

Geology, Science, Environmental Management, Carbon Sequestration, Sinkholes, Public Speaking, Environmental Science, Environmental Health, Water Quality, Student Development

Affiliations

Geological Society of America, National Speleological Society, American Geophysical Union

Event Appearances

Karst Geology

Missouri Master Naturalists Annual Conference

Living with our Landscape: Lessons from Sinkholes

Summer Science Series Lecture

Power to the People: Carbon Sequestration and Energy Options

Springfield Rotary Club

Education

University of Kentucky

PhD Geology

Accomplishments

Foundation Award for Service
Missouri State University
2013

Provost's Committee to Review/Revise General Education Program
Missouri State University
2010-2012

Missouri State University – Ozarks Environment & Water Resources Institute - Advisory Board
2011
