

Dr. Ilse Treurnicht

CEO at MaRS

Toronto, ON, CA

This extraordinary CEO and Rhodes Scholar leads an organization dedicated to developing the next generation of Canadian growth companies

Description

Ilse Treurnicht is the CEO of MaRS Discovery District, a leading innovation centre located in Toronto. She oversees both the development and operations of the MaRS Centre and its broad suite of entrepreneurship and innovation programs. MaRS offers advisory services, market intelligence and entrepreneurship education to emerging companies in health care/life sciences, digital media/ICT, cleantech and social purpose businesses across Ontario.

Ilse has worked closely with the leadership of Toronto's academic institutions and teaching hospitals to create MaRS Innovation, an integrated commercialization platform for 14 Toronto Institutions and served as the interim Managing Director for a year following its formal launch in early 2008.

Ilse joined MaRS in early 2005 from her role as President & CEO of Primaxis Technology Ventures, a start-up stage venture capital fund focused on the advanced technologies sector. Prior to Primaxis, Ilse was an entrepreneur with senior management roles in a number of emerging technology companies.

She is an active member of Canada's innovation community and has served on the boards of private companies, industry associations and research organizations. She has also been a member of several government advisory panels.

Ilse holds a DPhil in chemistry from Oxford University, which she attended as a Rhodes scholar. She has twice been honoured with the prestigious Canada's Most Powerful Women: Top 100 Award the first time in 2009 and again in 2011.

Sample Talks

The Future of Innovation

Dr. Ilse Treurnicht, CEO MaRS Discovery District, presents on the importance of innovation for national productivity, and the crucial role women play in building and supporting innovation.

Models of Social Innovation Collaboration

Canadians already understand that innovation of all kinds is critical to our country's future prosperity. Our response will require much more than the contributions of individual innovators and companies, and must include communities, institutions and government.

Dr. Treurnicht will explore models for collaboration - between silos of specialization, and the cultures of academe, business, and the public sector - as we embark on a shared journey towards a resilient innovation nation.

Women and Canada's Innovation Economy

Innovation represents a challenge and an important opportunity for Canada's economic future: strengthening our competitive advantages where we are already well positioned, and making a new generation of knowledge based businesses possible.

Today, women are modest participants in Canada's innovation economy, and its leadership. For Canada to succeed, we need to mobilize our best ideas and our skilled resources. Women engineers have a very important contribution to make, now and in the future.

Raising the Bar: Organizational Leadership

A discussion highlighting best practices by top thought leaders in the areas of health, education and technology. The session will aim to extract new insights by drawing on the expertise and experience of the CEO of MaRS Discovery District. More specifically, the discussion will be focused on how innovation can be realized within organizations despite having fewer resources available to them.

Catalyst Cities: Leaders of the new economy

Catalyst cities are centers of business and innovation " establishing new models of partnership that align public & private objectives, promote new ideas, and foster great culture to create the economies and living standards we desire. Catalyst cities are leading the attraction of human and financial capital as they re-emphasize the role of urban strengths through major events, exports, entrepreneurship and globally connected talent. This presentation will explore catalyst cities in more depth.

Accomplishments

Recipient â€™ Canadaâ€™s Most Powerful Women: Top 100â€™ Award

Dr. Treurnicht has twice been honoured with the prestigious Canadaâ€™s Most Powerful Women: Top 100â€™ Awardâ€™the first time in 2009 and again in 2011.

The Canadaâ€™s Most Powerful Woman: Top 100â€™ Awards is Canadaâ€™s most recognizable Award for the countryâ€™s highest achieving female leaders in the private, public and not-for-profit sectors.

Board of Directors â€“ Cogniciti

Cogniciti is a joint venture formed in 2009 through a partnership between Baycrest, one of the worldâ€™s leading cognitive science institutes, and MaRS, Canadaâ€™s premier innovation centre.

Recipient â€“ The Toronto Awards

Dr. Treurnicht was the recipient of The Toronto Awards in the Science category.

The Toronto Awards recognized 10 people who rose above the fray. They turned heads, ignored convention and made us proud to call ourselves Torontonians.

Nominee â€“ 25 Transformational Canadians

Dr. Treurnicht was nominated as being one of 25 Transformational Canadians by The Globe and Mail.

The Globe and Mail partnered with CTV and Cyberpresse to celebrate Canadians who have sought to make a difference â€“ not just by doing what they do, but through the demonstrable impact they've made on the world around them, whether in Canada or beyond.

Through their vision, leadership and actions, each of these people has immeasurably improved the lives of others.

Board of Directors â€“ The Next 36

The goal of The Next 36 is to help launch the careers of Canadaâ€™s most promising and innovative undergraduates. The program will identify these students through a rigorous selection process, and give them the academic foundation, practical skills, role models and networks to become Canadaâ€™s next generation of entrepreneurial leaders. Students learn from high-profile business leaders, entrepreneurs and academics while wrestling with the challenge of building a new venture from idea to market.

Li Ka Shing Knowledge Institute â€“ International Advisory Committee

The Li Ka Shing Knowledge Institute of St. Michaelâ€™s Hospital is home to leading researchers, educators, and clinicians â€“ dedicated professionals making new scientific discoveries, generating novel therapies, developing innovative training programs, and helping translate knowledge into practice. The Institute fosters an environment in which inter-professional teams collaborate to bring established best practices and research discoveries to patient bedsides faster than ever before.

Advisory Council â€“ MaRS Centre for Impact Investing

The MaRS Centre for Impact Investing (CII) is a national hub designed to increase the awareness and effectiveness of social finance to catalyze new capital, talent and initiatives dedicated to tackling social and environmental problems in Canada. The CII is a social finance hub and incubator that acts as a neutral collaboration space for all sectorsâ€™ government, community and privateâ€™ enabling collective participation, talent and product development.

CEO â€“ MaRS Discovery District

MaRS is where science, technology and social entrepreneurs get the help they need. Where all kinds of people meet to spark new ideas. And where a global reputation for innovation is being earned, one success story at a time. MaRS provides resources â€“ people, programs, physical facilities, funding and networks â€“ to ensure that critical innovation happens. We stimulate, identify and harness great ideas, nurture their development and guide the transformation of those ideas into reality.

Chair of Canadian Task Force on Social Finance

The Task Force on Social Finance (TFSF) has been assembled by Social Innovation Generation, a national project partnered with the MaRS Discovery District in Toronto, seeking to fundamentally alter the way we think about investing and philanthropy in Canada. The TFSF's mandate is to deliver recommendations that will ignite the development of an investment marketplace dedicated to addressing Canada's social and environmental challenges.
