Biography

Dr. Mine Durusu Tanriover is a Professor of Internal Medicine in Hacettepe University Faculty of Medicine (Ankara, Turkey) with clinical experience in the care of acute and critical patients. She is the consultant of the Acute Care Unit mainly admitting patients with acute decompensation of chronic diseases; lower respiratory tract infections, organ failure and acute, undiagnosed conditions. Dr. Durusu-Tanriover is the author of more than 40 peer-reviewed articles. Her research area mainly consists of acute care and adult vaccination. She has been involved in the Global Influenza Hospital Surveillance Network project as the site coordinator and many other local projects related to acute diseases and adult vaccination. Representing the Turkish Society of Internal Medicine, she is involved in the National Adult Immunization Guideline Task Force and the Turkish Society of Rheumatology Vaccination Working Group. She is the founder and the first chair of the Young Internists Working Group and Honorary Fellow of the European Federation of Internal Medicine (EFIM). She is currently an active member of the Professional Issues and the Adult Vaccination (ADVISE) Working Groups of EFIM.
