

Dr. Mohit Kapoor

Senior Scientist at University Health Network

Toronto, ON, CA

Dr. Kapoor's research program examines the molecular basis of arthritis with the aim to identify new therapeutic targets.

Biography

Dr. Mohit Kapoor is a Senior Scientist in the Division of Genetics and Development at Krembil Research Institute (Krembil). Dr. Kapoor's research program examines the molecular basis of arthritis with the aim to identify new therapeutic targets to slow down the process of cartilage degradation. He is also an Associate Professor, Department of Surgery and Department of Laboratory Medicine and Pathobiology, University of Toronto.

Dr. Kapoor graduated from the University of Otago (New Zealand) with a PhD in Pharmacology and Toxicology, after which he conducted two postdoctoral fellowships in London, ON, and Lexington, KY. Prior to his arrival at UHN, Dr. Kapoor held an Assistant Professor appointment at the Université de Montréal.

Industry Expertise

Research, Pharmaceuticals, Education/Learning

Areas of Expertise

Pharmacology, Toxicology, Arthritis, Medical Education, Genetics, Pathogenesis, Molecular Biology, Cell Biology, Clinical Research

Affiliations

Associate Professor University of Toronto, Adjunct Professor University of Montreal

Education

University of Otago

Ph.D. Pharmacology and Toxicology
