

Dr. Robert Inman

Program Medical Director – The Arthritis Program at University Health Network

Toronto, ON, CA

Dr. Robert Inman is a professor of medicine at the University of Toronto & director of The Spondyloarthritis Research Consortium of Canada.

Biography

Dr. Robert Inman is a Senior Scientist, Division of Genetics and Development, at the Krembil Research Institute (Krembil). Dr. Inman has held many national and international leadership positions including the member of the Board of Directors of the American College of Rheumatology, Chair of the Medical and Scientific Board of the Spondylitis Association of America, member of the Executive Committee of the Assessment of Spondyloarthritis International Society (ASAS), and Past-President of the Spondyloarthritis Research Consortium of Canada (SPARCC).

The broad research themes in Dr. Robert Inman's lab have been the interaction of infection and autoimmunity, and the environmental-genetic interplay in the pathogenesis of arthritis. This has encompassed translational research into the immunobiology of spondylitis and related forms of arthritis, animal models of infection-induced arthritis and autoimmunity, and the cell biology of host:pathogen interactions.

Industry Expertise

Education/Learning, Research, Medical/Dental Practice, Health and Wellness, Writing and Editing

Areas of Expertise

Medicine, Immunology, Arthritis, Spondylitis, Higher Education, Medical Education, Science

Affiliations

Spondylitis Program UHN : Director, Arthritis Center of Excellence UHN : Director, Research Committee
Arthritis Program UHN : Chair

Education

Hammersmith Hospital

Research Fellowship Medicine

Cornell University

Fellowship Rheumatology

Vanderbilt University

Residency Internal Medicine

McMaster University
MD Medicine

Yale
BA Bachelor of Arts
