

Dr. Vera Brill

Medical Director - Krembil Neuroscience Centre at University Health Network

Toronto, ON, CA

Neurologist and researcher focused on the diagnosis and management of patients with complex neuromuscular disorders

Description

Dr. Vera Brill is a Professor of Medicine (Neurology) at the University of Toronto, Director of Neurology at University Health Network and Mount Sinai Hospital and the Krembil Family Chair in Neurology. She has particular expertise in the diagnosis and management of patients with complex neuromuscular disorders. Her research interests have centred on the diagnosis and evidence-based treatment of myasthenia gravis, inflammatory polyneuropathies, and diabetic sensorimotor polyneuropathy. Her work has helped set the standards for electrophysiological investigations in the definition and evaluation of the progression of chronic polyneuropathies. Her research has helped establish the role of intravenous immunoglobulin in the treatment of myasthenia gravis and the Guillain-Barr Syndrome, and the long-term treatment of chronic inflammatory demyelinating polyneuropathy. She has acted in an advisory capacity to Health Canada and the FDA.

Dr. Brill also serves as the Deputy Physician-in-Chief for Economic Affairs for the Department of Medicine at University Health Network and Mount Sinai Hospital and Chair of the Economics committee. She is part of the Department of Medicine Executive Committee and helps administer this group of 300 physicians.
