

Elaine Jackson, Ph.D., P.T.

Professor, School of Physical Therapy & Director, Dallas Office of Research at Texas Woman's University

Dallas, TX, US

Expert on women's injuries and health promotion, physical activity for illness prevention and physical activity related injuries in women.

I currently teach first year entry-level physical therapy students and a number of courses in the transitional DPT and PhD curriculums. My research interests are in the area of health promotion (especially the use of physical activity for illness prevention) and women's injuries. My most recent research project is an NIH funded study to assess the public health burden of physical activity related injuries in women.

Education/Learning, Research

Muscle Strength, Balance, Physical Activity, Teaching, Higher Education, Orthopaedic Geriatrics

Dallas Office of Research : Director

Texas Women's University
