

Erin Kaplan

Clinical Assistant Professor of Economics at Loyola Marymount University

Los Angeles, CA, US

Bellarmino College of Liberal Arts

Biography

Erin Kaplan is an applied microeconomist, who earned her PhD from the University of California Santa Barbara in 2011. Her research interests span the fields of labor economics, health economics, urban development, and the economics of education. Much of her work focuses on how public policy impacts the well-being of individuals and communities. She also works to translate academic research into useful and practical knowledge for communities, non-profits, governments, and policy makers. To that end, she has collaborated with a variety of local, regional, and national organizations, and her research has been funded by The Urban Child Institute, the American Cancer Society, and the National Institutes of Health.
