Gerardo is a master in reinventing himself, a people person and a trainer at heart. He has been designing and delivering workshops for over 20 years.

Since 2011, he has been a co-founder, co-owner, and COO of Sliding.ca, an organization devoted to helping presenters to structure, design and deliver clear, concise, and compelling presentations.

While studying Electronics Engineering in Mexico, Gerardo discovered his passion for training and has been training and delivering presentations ever since.

He has been a successful IT consultant and Microsoft Certified Trainer (MCT), a professional fashion photographer, and now, combining both skill sets, an eminent presentations coach, trainer, and designer.

In 2013 he received his Instructing Adults Certificate from George Brown College. He is a member of the Canadian Society for Training and Development (CSTD) and he is currently pursuing his Certified Training Practitioner (CTP) designation.

Gerardo is also a very active Toastmaster, achieving the highest recognition, Distinguished Toastmaster (DTM), in 2013. He has served as Area Governor, VP Membership, mentor for several members and a new club, and as a coach for several advanced speakers.

Here’s what others have to say about Special Delivery:

Special Delivery is a complete 3-D look at presenting – Software (Design), Hardware (Equipment), and Art (Speaking Skills). In my mind, the best lesson of all was to not “settle”. Don’t settle for the templates that PowerPoint wants to provide. Master your equipment – don’t just connect cables and switch on the projector. Don’t settle for a good presentation when you can use a myriad of techniques to be special to your audience. Don’t forget to take your manual home. It’s valuable.
