

Golda Ginsburg, Ph.D.

Professor, Department of Psychiatry at University of Connecticut

Farmington, CT, US

Professor with expertise in anxiety in children and psychology.

Description

Dr. Ginsburg joined the Child Division of the Department of Psychiatry at UConn Health in July 2014. She moved to Connecticut from the Johns Hopkins University School of Medicine where she was professor of Psychiatry. Ginsburg has been developing and evaluating interventions for anxious youth for more than 20 years and is the recipient of numerous grants and awards. She has been the principal investigator or co-PI on several landmark clinical trials funded by the National Institute of Mental Health (NIMH) for depression, anxiety, and Tourette's syndrome. Ginsburg received her B.A. from California State University in Northridge, and her M.A. and Ph.D. from the University of Vermont. Following a clinical internship at Hutchings Psychiatric Center, she completed a postdoctoral fellowship at Florida International University in 1995.
