Gainesville, FL, US

Dr. Ibrahim Nassour specializes in surgeries for cancers of the gastrointestinal tract, pancreas, liver and bile duct.

---

## **Biography**

Dr. Ibrahim Nassour, M.D., M.S.C.S., is an assistant professor and surgical oncologist. At UF Health, Dr. Nassour specializes in surgeries for cancers of the gastrointestinal tract, pancreas, liver and bile duct. He has special interest in robotic pancreato-biliary surgery including robotic pancreaticoduodenectomy (Whipple procedure) and in regional therapies for metastatic disease. Dr. Nassour's research focuses on comparative effectiveness studies that evaluate the role of minimally invasive and robotic surgery as well as the role of neoadjuvant therapy in the management of pancreato-biliary cancers. In addition, he is interested in designing clinical trials in the management of pancreato-biliary malignancies.
