

Isaac Bogoch

Clinical Researcher, Toronto General Research Institute at University Health Network

Toronto, ON, CA

Dr. Bogoch's clinical and research interests are in Infectious Diseases, Global Health, Tropical Diseases and HIV

Description

Dr. Bogoch completed medical school and internal medicine training at the University of Toronto. He then pursued an infectious diseases fellowship through the Harvard Partners program, and an HIV fellowship at the Massachusetts General Hospital. He holds a Masters degree in clinical epidemiology from the Harvard School of Public Health, and a Diploma in Tropical Medicine and Hygiene from the Gorgas Memorial Institute and the Instituto de Medicina Tropical in Lima, Peru.

Dr. Bogoch's clinical and research interests are in Tropical Diseases and HIV. He works with an international and interdisciplinary team that develops and implements innovative diagnostic tools for neglected tropical diseases in resource-constrained settings. He is also a clinician-investigator in the HIV Prevention Unit, with a focus on developing non-occupational Post-Exposure Prophylaxis and Pre-Exposure Prophylaxis delivery models.
