

Jeff Walker

Civil Engineering professor and program coordinator at Cambrian College of Applied Arts and Technology

Sudbury, ON, CA

Civil Engineering professor with an expertise in structural design and a passion for community involvement.

Biography

Jeff Walker is a professor in and coordinator of the Civil Engineering program at Cambrian College for 17 years.

As a former plant engineer for a precast concrete manufacturer and a field engineer for a large construction company, he has a solid background in civil engineering. He is also involved in applied research at the College.

A community leader, Walker and his students participate annually in the Sudbury Food Bank's CANstruction fundraiser. In his spare time he coaches various sports teams in the Sudbury area.

Walker is available for interviews on structural design and what causes infrastructure (buildings, roads, bridges, etc.) to deteriorate.
