Gutsche is one of the most sought-after keynote speakers on the planet, well-regarded as the top trend-spotter in the world... The most energizing, inspiring and applicable piece of stand-up I have ever seen. And I've heard Bill Clinton... Bill Gates... and Tony Robbins.

**David Kliman**

He's just incredible. Totally spot on. He takes his remarkable research and applies it to our industry. He captures attention. I've seen him 2 times, including the superbowl of meetings, the 3,000 person MPI World Education Congress. I love hearing Jeremy speak

**Brooke Dillier**

Can you say "Jeremy Gutsche" without breaking out in goosebumps? I think not. His opening keynote address this morning wowed even me - the woman who hired and helped prep him for his keynote. I should have been better prepared for how awesome he would be. You could feel the energy in the room, even digitally, through the virtual live stream of the session. The Twitter feeds lit up like I've never seen before at MPI. His messages of innovation and exploiting chaos were on target and he did a phenomenal job of engaging our audience, tying his messages into relevant information for our industry.

**Wren Keber**

I've seen him 3 times and booked him for my clients. When he speaks, people tweet so much when he is onstage, it takes down our networks. People love him. I can't wait to book him for a fourth time, because he is wonderful.

**Jeff Busch**

Jeremy Gutsche is the rockstar of keynote speakers! He rocked the house. He brought people alive.... He got people focused on the message and every single person was with him for every word. Jeremy Gutsche, you rock!
