“We asked Jim Villwock to speak to a group of 300 professional job seekers at RUMC Job Networking so he could share his ideas on how to compete for a job. Jim had everyone engaged for a full 50 minutes with his solid methodology that is based on his real world experiences. We look for speakers that can work with a complete range of individuals – from Administrative Assistants to CFO’s. Jim surpassed our expectations and we hope to have him back sometime!”

June Erickson

Jim was a speaker for the Atlanta Business School Alliance’s Career Transition Seminar... His description of the job hunting process is revolutionary compared to the usual method most people take – he helped our attendees start to understand that they need to think about themselves as a brand and decide exactly what it is they want to do for a career and develop a comprehensive marketing campaign around that one key aspect. He explained how to effectively network – people want to help you but you have to tell them what you do best and how they can help you. He included key points from his book and seminars that will certainly get many of our attendees on the right path to finding a job they really want to do...
