

John Griffin

Professor, Department of Finance at The University of Texas at Austin, McCombs School of Business
Austin, TX, US

Conflicts of interest, CDOs, MBS, credit ratings, international finance, investors, real estate, pricing, and hedge funds

Description

John M. Griffin is an educator and researcher in the structured finance field with respect to mortgage backed securities and collateralized debt obligations. His expertise also includes international finance, institutional investment, and forensic finance, and his recent research focuses on understanding the role that conflicts of interest and misreporting by credit rating agencies and investment banks played in the financial crisis.

Griffin is a professor of finance at the McCombs School of Business, The University of Texas at Austin. He has also served on the faculty at Arizona State University, Yale University, Hong Kong University of Science and Technology, and Harvard Business School.

He serves as the associate editor for the Review of Financial Studies and has been elected as an Academic Director of the Financial Management Association. Topics of his papers include: the determinants of international returns and diversification, exchange rate exposure, pricing models, anomalies, co-movement, hedge fund performance, IPOs, investment banking, insider trading, credit ratings, the role of reputation, and mortgage misreporting.

Testimonials

David Wenger

John Griffin's research insightfully reveals the truth behind the mythology of capital markets, such as his work showing that hedge fund managers perform no better than the buy-and-hold crowd. He isn't afraid to point out that the emperor has no clothes.
