

Judith G. Foy

Professor of Psychology at Loyola Marymount University

Los Angeles, CA, US

Bellarmino College of Liberal Arts

Biography

Judith Foy is Professor of Psychology at Loyola Marymount University where she teaches courses in research methodology, cognition, and mind-brain interactions. Dr. Foy earned her Ph.D. in Experimental Psychology (Cognitive Neuroscience) from Kent State University and completed a Post-doctoral Fellowship at UCLA's Semel Neuroscience Institute. Also a credentialed and licensed Speech Language Pathologist, Dr. Foy completed clinical training in rural Maine and urban Los Angeles and maintains a research focus on underserved populations, especially children and young adults with learning and memory difficulties. Current directions in her research include hormone, stress and age effects on learning and memory, computer-based working memory interventions for kindergarteners, the relation between cognition and reading, and the role of speech/language skills in early reading development.
