Biography

15 years of experience in the consulting sector lead to the current competence set covering all aspects of the consulting environment: General P&L responsibility, Business development, Account mgt, Leadership skills, Project/program mgt as to delivery, this both on national and international level.

Content focus on the current offering and positioning in the area of 'Customer Interaction management': leveraging the combination of Information management, Analytics, customer relationship management and the Business and IT alignment track.

Within 4C Consulting my offering consists of two business units:

- 1. Customer Insight:

* the cross area between IM and CRM: 'Customer analytics', ie funnel analysis, conversion rates, churn, CLV, Google analytics, ROC,...

* the cross area between CRM and business: 'CRM information architecture', ie CIM, Data Quality, Customer DM, Systems, Business semantics (Collibra),...

* the cross area between BI and CRM, ie PM, PrM, Segmentation, Multi Channel interaction, 360 views, CEM,...

2. Change, transition and process management:

Focus on being the business partner inbetween business and IT is the goal, to leverage both sides towards each other.

Eminence building:

- Guest Lecturer EMS HUB Brussels (2009 - 2012);
 - Washington: presentation on XBRL conference;
 - Vienna: presentation at OEB (Austrian national bank);
 - Paris: presentation on EU conference;
 - BI Award winner 2012 with Escapo case;
