

Leslie Leve

Associate Vice President for Research at University of Oregon

Eugene, OR, US

Expert in adoption, foster care, child abuse, interventions and outcomes for youth in the juvenile justice system.

Description

Leslie Leve is an expert in adoption, foster care, child abuse, interventions and outcomes for youth in the juvenile justice system, child development and teen girls. At the University of Oregon, Leslie is a professor in the Counseling Psychology and Human Services Department and the associate director for the Prevention Science Institute. She is currently working on a national study about the genetic and environmental influences on child health (ECHO). She can also speak to the problem of "re-homing" of adopted children, teen girls, and topics related to foster care and maltreatment.
