

Linda Durnell, PhD

Adjunct Faculty - Media Psychology at Fielding Graduate University

Silicon Valley, CA, US

Virtual Reality, Media Psychology and Social Change

Linda Durnell, PhD is a media psychologist, researcher and educator. Dr. Durnell's current research is on the Emotional Reactions of Viewing a Crisis in Virtual Reality (VR), which she presented at Stanford's 3rd Annual Innovations in Psychiatry and Behavioral Health: Virtual Reality and Behavior Change as well as the VR and Healthcare Symposium at Harvard Medical School.

As adjunct faculty at Fielding Graduate University, Dr. Durnell teaches graduate students the "Psychology of Technology."

Dr. Durnell works with technology and non-profit organizations in Silicon Valley. She also works with the Department of Defense, the Department of Homeland Security (DHS), and the U.S. Army Special Operations Command (USASOC) and Joint Staff (SMA) to assess options in the cognitive space to disrupt and counter ISIL operational capabilities. In addition, she trains Psychological Operations (PO) operators.

Durnell is a frequent presenter at technology (AWE) and psychology conferences (APA) and public lectures on the topics of virtual reality for social change, and how technology affects human behavior.

Dr. Durnell brings research and resources to industry-defining technology used to facilitate change in our approach to healthcare.
