

Lynn Lewis

Professor, Biology at University of Mary Washington

Fredericksburg, VA, US

Lynn Lewis is a professor of biology at the University of Mary Washington.

Biography

Lynn O. Lewis, Professor of Biology, earned a Ph.D. (1987) in microbiology and a B.S. (1982) in biology from Virginia Polytechnic Institute and State University. A former poultry virologist for the Virginia Department of Agriculture and Consumer Services, Dr. Lewis is an expert on microbiology and virology, including disease mechanisms, microbial physiology and veterinary microbiology. Dr. Lewis' current research involves the analysis of viruses that infect bacteria, and her students have presented research at meetings of the Virginia Academy of Science and the Virginia Branch of the American Society for Microbiology (ASM).

Dr. Lewis is a member of Sigma Xi, the Scientific Honor Society and the American Society for Microbiology. As the treasurer and a member of the Virginia Branch of the ASM, she has led discussions on the teaching of microbiology to undergraduates, making her a knowledgeable source on this topic.

Industry Expertise

Education/Learning, Biotechnology, Research, Veterinary

Areas of Expertise

Biology, Microbiology, Virology, University Teaching, Academic Advising, Curriculum Development, Science, Microbial Biology

Affiliations

American Society for Microbiology, Sigma Xi The Scientific Research Society

Event Appearances

A Study of Chloroquine's Antiretroviral Characteristics
Virginia Academy of Science Fall Undergraduate Research Meeting

Education

Virginia Tech
Ph.D. Microbiology

Virginia Tech
B.S. Biology

Accomplishments

Mary W. Pinschmidt Award

Selected by the University of Mary Washington College of Arts and Sciences graduating class as the faculty member “whom they will most likely remember as the one who had the greatest impact on their lives.”
