

Marie Coppola, Ph.D.

Associate Professor, Department of Psychological Sciences at University of Connecticut
Storrs, CT, US

Associate Professor in the Department of Psychological Sciences focused on language acquisition, ASL, deaf culture, and cognitive science.

Biography

Dr. Coppola studies language acquisition and language creation as well as the relationship between language and cognition, as revealed by D/deaf individuals who vary in their experience with language. She is particularly interested in how early exposure to language fosters typical development in social cognition and numerical cognition.

Areas of Expertise

Lange Acquisition, Number Cognition, Homesign, Language Emergence, Cognitive Development, Sign Language Structure

Education

University of Rochester
