

Mark Worden

Associate Chair of the Department of Biomedical Engineering and Professor of Chemical Engineering and Materials Science at Michigan State University

East Lansing, MI, US

An expert in biomedicine. His research involves the application of engineering principles to biological systems.

Biography

His research involves the application of engineering principles to biological systems. His lab has special expertise in the use of proteins as nanomachines, and in the production of high-value products utilizing enzymes and biological cells.

Industry Expertise

Biotechnology, Education/Learning, Writing and Editing

Areas of Expertise

Health, Biomedical Engineering

Affiliations

Great Lakes Chapter of ISPE, Board of Directors

Accomplishments

2003-2004 Withrow Teaching Excellence Award
MSU
