

Mary Kelly, PhD

Associate Chair and Assistant Professor of Economics | Villanova School of Business at Villanova University

Villanova, PA, US

Mary Kelly, PhD, is an expert in economics, cable and the telecommunications industry

Biography

Professor Mary Kelly's primary research interests focus on the impact that industry structure and public policy have on costs and prices. Her empirical work specifically examines these relationships in the telecommunications and media industries. She regularly provides commentary and analysis of telecom and cable issues on her blog and other media outlets. In her current work, she also examines the impact of non-standard work arrangements on job satisfaction and overall well-being, controlling for occupation type, gender and other job and demographic characteristics.
