

Michael Milczarek, M.S.

Senior Soil Scientist at Global Water Experts

Tucson, AZ, US

Mike Milczarek has over 20 years of experience in groundwater recharge, mine reclamation and land restoration studies

Mike Milczarek's recent responsibilities include the design and management of mine waste reclamation and long-term monitoring studies, management of a multi-year riparian habitat restoration study, and monitoring of natural groundwater recharge in a variety of environments. He has played a key role into research on using seeds for riparian habitat restoration and also the monitoring and management of water use and salinity in habitat restoration areas on the Lower Colorado River. Mike has authored or co-authored over 30 refereed papers on groundwater recharge, mine reclamation and riparian habitat restoration.

Precious Metals / Minerals, Mechanical/Industrial Engineering, Mining and Metals, Sanitation and Waste Management, Energy, Management Consulting

Groundwater Recharge Processes, Mine Waste Closure System Assessment and Design, Habitat Restoration, Unsaturated Flow and Contaminant Fate and Transport, Surface Water/Groundwater Interactions, Stormwater Capture for Groundwater Recharge

University of Arizona

MS Soil and Water Science

Northern Arizona University

BS Environmental Science

Northern Arizona University

BS Chemistry
