

Michael Reed

Professor, Physics, Astronomy and Materials Science at Missouri State University
Springfield, MO, US

Dr. Reed's research focuses on asteroseismology, binary stars and extrasolar planets.

Biography

Dr. Michael Reed has two main research interests: pulsating stars and extrasolar planets. He's a member of a team that discovered a planet orbiting an evolved star.

Industry Expertise

Education/Learning, Research

Areas of Expertise

Binary Stars, Compact Evolved Stars, Extrasolar Planets, Asteroseismology

Affiliations

Kepler Satellite Asteroseismology Consortium

Education

Iowa State University
Ph.D. Astrophysics

University of Washington
B.S. Physics and Astronomy

Accomplishments

Foundation Research Award, Missouri State University
2014

Excellence in Teaching Award
Department of Physics, Astronomy & Materials Science, Missouri State University, 2010

Excellence in Research Award
Department of Physics, Astronomy & Materials Science, Missouri State University, 2007

Foundation Research Award, Missouri State University
2007

Excellence in Teaching Award, College of Natural and Applied Science, Missouri State University
2005

Excellence in Research Award, College of Natural and Applied Science, Missouri State University
2004
