

Mr. Grant A Donald

Creative Director at Silktree Group

Shanghai, , CN

Global ageing needs designers who understand the phenomenon and who can create environments that promote Active Ageing

Description

Grant is a Shanghai based prize-winning Australian Urban designer/ Landscape Architect focused on creating nurturing environments for the elderly. He has 35 years experience in the design & development of urban, suburban & rural projects around the world, with 20 years work experience in Australia the Asia Pacific Region & 10 years in the Middle East. He has worked and/or lectured in 40 cities globally including lecturing at Universities in Abu Dhabi, Ankara, Beijing, Dubai, Edinburgh, Hong Kong, Mumbai, Nairobi, Perth, Prague, St.Petersburg and Shanghai.

His experience covers large-scale strategic and master plan designs as well as recreation and open space strategies and policies.

His design experience includes working on projects such as "The Palm" in Dubai, Durrat Al Bahrain and Expo Shanghai as well as working as an advisor on iconic projects such as Shanghai Disneyland and the Presidential Palace Abu Dhabi.

Grant also had a roving ambassadorial role with the International Federation of Landscape Architects which entailed working globally with students and governments to further the cause of the federation. In this role Grant was one of the initial coordinators for the development of the profession in Africa. He also assisted UNESCO for the development of world heritage sites in China (Da Zou & Suzhou) as well as providing advisory assistance to them for the development of Qurâ€™anic gardens in the Middle east.

Along with his experience as a landscape architect and designer he is considered a renown keynote speaker and champion of the profession of landscape architecture.

In his current role as Creative Director of Silk Tree International he is championing the use of open space and parks to promote Active Ageing. His theories on the development of open space systems for the elderly has seen him lecture on the subject in Beijing, Shanghai, San Francisco, Washington, and the UK. His approach to aged care and open spaces see him as one of the worlds most innovative designers.

Industry Expertise

Health Care - Facilities, Elder Care, Training and Development, Program Development, Architecture and Planning, Design

Topics

Active Ageing, Age Care workshops, Education and Training, Landscape Design, Outdoor Spaces, Policy Development, Urban Design

Affiliations

Australian Institute of Landscape Architects, Shanghai Society of Landscape Architects, International Federation of Landscape Architects, Previous Chair of the Africa Committee for IFLA

Sample Talks

Active Ageing

The principles of Active Ageing and the impacts it has on design

Parks and Open Spaces - redefining the users and uses

As the population ages the uses and user patterns of parks and open spaces will change. The change in demographics will have an impact on what type of open spaces we design and build.

Planning for a new demographic

As we become older and Urbanization is happening more rapidly how should the future of our cities cope with a larger older population.

RECLAIMED, a modern design approach to the issue of the Ageing population

RECLAIMED is an acronym to describe the nine processes we need to go through to when we design for the elderly.
