

Nolan Taylor

Clinical Assistant Professor of Information Systems at Indiana University, Kelley School of Business
Indianapolis, IN, US

Nolan Taylor's research focuses on computer systems usability, e-commerce, and technology-enabled group performance.

Description

Nolan Taylor comes to the Kelley School of Business at Indiana University with 9+ years in the area of military system acquisition. Dr. Taylor has extensive experience as a software engineer and the management of information systems. His research focuses on decision support systems, IT evaluation and adoption, and IT security, particularly in the area of computer security awareness training.

During his time in the United States Air Force, Taylor pursued his MBA through California State University, with a focus on management information systems. After receiving his MBA and completing his time in the military, Taylor pursued his PhD at the University of Georgia. He received his undergraduate degree in engineering from the University of Alabama.
