

Patricia Norris

Guyer Seevers Chair in Natural Resource Conservation at Michigan State University

East Lansing, MI, US

An expert in water resources, natural resource conservation, environmental and natural resource governance.

Biography

Professor Pat Norris is appointed in the tenure system and is the Guyers-Seevers Chair in Natural Resource Conservation at Michigan State University. She has conducted research and developed outreach programs addressing issues in soil conservation, water quality, groundwater management, wetland policy, land markets, land use conflicts and farmland preservation. In her extension work, she has focused largely upon natural resource policy issues, working with private resource owners, local governments, and state and federal agencies as they address the needs for and impacts of institutional change. In addition, her teaching responsibilities have included courses in natural resource economics, environmental economics, ecological economics, environmental science, and agricultural policy.
