International Market Development Strategy, Alzheimer's Disease, Healthcare Funding, Healthcare Innovation, Life Sciences, Healthcare 2.0, Healthcare Efficiency and Technology, Mobile Health Technologies, Neurological Technology

The Effect of eHealth on the Aging Population

Healthcare systems around the world are struggling to improve healthcare delivery against a backdrop of legacy processes, technology, governance and procedural design. Our aging population will have the biggest impact on the healthcare system in the next 20 years. In this workshop, Peter will discuss the impacts that eHealth technologies need to have to manage the escalating costs in the system.

Keynote Introduction

MaRS Health IT Innovation Forum

The Effect of eHealth on the Aging Population

Canada 3.0 Conference

Oxford University

HNC (B.Sc. Equiv.) Applied Physics

Central School of Speech and Drama, London

Acting Fundamentals, Text and Speech

Senior Health IT Business Advisor – MaRS Discovery District

MaRS helps create successful global businesses from Canada's science, technology and social innovation. MaRS provides resources — people, programs, physical facilities, funding and networks — to ensure that critical innovation happens. We stimulate, identify and harness great ideas, nurture their development and guide the transformation of those ideas into reality. We measure our success through the companies that emerge after receiving help from MaRS.
