

Platon Kostelletos

Freelancer Geologist at Freelancer

Athens, Attiki, GR

Freelancer Geologist

Biography

As Engineering Geologist I was visiting sites, creating geological maps and sections, collecting and interpreting data from rock mass. In addition, I was assigned to organise and supervise geotechnical investigations and drilling projects, soil sampling and core logging, providing information to clients while delivering the final reports. Additionally, my involvement to geotechnical laboratory testing on soil and rock mechanics has offered me the opportunity to be a qualified geologist on rock and soil testing methods, by the Hellenic Accreditation System S.A. (E.SY.D.). Concluding, I am a member of the Geotechnical Chamber of Greece (GEOTEE), the Geological Society of Greece (EGE), the Greek Committee of Engineering Geology (EETG) and the International Association for Engineering Geology and Environment (IAEG).

Industry Expertise

Civil Engineering, Oil and Gas, Mining and Metals

Areas of Expertise

Geology, Geotechnics, Mining

Affiliations

Member of:

Geotechnical Chamber of Greece, Association of Greek Engineering Geologists, Association of Greek Geologists, International Association for Engineering Geology and Environment (IAEG)

Education

University of Athens

MSc Educational Technology and Human Resources Management

University of Patras

BSc Geology
