

Prof. Kaarin Anstey

Professor at Australian National University

Canberra, , AU

Psychology and neuroscience expert exploring the epidemiology of cognition and dementia

Description

Kaarin Anstey is a Professor of Psychology and Population Health at the Australian National University (ANU), Director of the ANU Centre for Research on Ageing, Health and Wellbeing, and an ANU Public Policy Fellow. Kaarin's substantive research interests include the causes of cognitive decline, the social impact of cognitive impairment, and interventions to improve cognitive function and prevent cognitive decline. Professor Anstey has worked extensively with longitudinal studies and leads the PATH Through Life Project. Kaarin has also developed a model of driving safety and conducts research to improve older driver safety. Kaarin is a member of the Expert Advisory Panel of the NHMRC National Institute for Dementia Research and a member of the Governance Committee of the Global Council on Brain Health, an initiative supported by the American Association of Retired Persons and AgeUK. In 2016, Professor Anstey established the International Research Network on Dementia Prevention.
