

# **Prof. Leocadio Rodriguez Mañas**

**Head of Department of Geriatrics at Universitario de Getafe**

Madrid, , ES

Professor Mañas ' research focuses on the clinical investigation of human vascular ageing and the mechanisms of vascular damage in diabetes

---

## **Biography**

Professor Mañas is the Head of the Department of Geriatrics at Hospital Universitario de Getafe (Madrid), President of the Research Committee at Hospital Universitario de Getafe and Professor "ad honorem" of the Department of Medicine of the School of Medicine, Facultad de Medicina de la Universidad Autonoma de Madrid, Spain.

Professor Mañas holds many other key positions including coordinator of the Spanish Collaborative Research Network on Aging and Frailty - RETICEF (Ministry of Science and Innovation), co-director of the epidemiologic study "Toledo Study on Healthy Ageing" involving 2845 community-dwelling older people and founding member and President of the Academia Latinoamericana de Medicina del Adulto Mayor (ALMA).

Professor Mañas is the principal investigator in 23 research projects sponsored by either a public agency or the pharmaceutical industry. His research focuses on the clinical investigation of human vascular (endothelial) ageing and on the mechanisms of vascular damage in diabetes. He has authored more than 110 original articles in peer-reviewed journals, and 54 books and book chapters. Professor Mañas has also produced Technical Reports on several aspects of ageing and on diabetes in the senior population.
