Richard Sakanashi was instrumental throughout the start-up phase of the business and continues to advise on matters of daily operations, marketing, and sales strategies. He is not afraid to ask the tough questions. This has helped us tackle the issues we were fearful of dealing with and has built trust in our relationship. It is significant to be able to call someone when you are faced with a difficult decision that could have long-term consequences for your business. Knowing that Richard is capable of sorting through the confusion and offering new perspectives on the problem provides us peace of mind. The long-term nature of his involvement with our company is refreshing in a business environment that is characterized by rapid change.
