I found Romona's services through LinkedIn and we established a relationship using this format. I am Chairman of Membership for the National Sales Network, Washington, DC/Baltimore chapter. Recruiting and maintaining membership for any non-profit association is challenging. Romona's master of social media techniques enabled me to more than double membership in a three month period of time. She also is a great strategist and thinks out of the box with new, fresh ideas. I would recommend Romona for any organization who needs to recreate and enhance their branding and visibility. She gives more than 100% into any task she undertakes.

I had the pleasure of attending a LinkedIn Symposium given by Romona (Admintech Consulting). Her knowledge and insightful techniques helped me to improve my use of this "HOT" social media business tool to generate more contacts, quality leads, and increase more business with 501(c) 3 non-profit organizations.

Romona has helped me tremendously. I have attended several of her events and trainings and yesterday we had a 3 hour social media consultation session. She taught me how to really leverage all of the work I've done on Facebook to promote awareness of my business. I learned lots of little tricks and tips that I had never thought of before and will have an impact on my Facebook presence. We spent the majority of our time focusing on LinkedIn, as this is the social media platform that I am most unfamiliar with. Wow, I really have a very detailed understanding of how to make my profile align with my level of expertise and experience. Additionally I now feel confident engaging potential referral partners and potential clients via LinkedIn. There is no doubt that this 3 hour session is going to have a huge impact on my business in the coming months and years. My confidence after this session to utilize this powerful network is beyond what I would have expected. She really knows what she is doing and is so easy to work with.
