

Steffanie Scott

**Professor, Department of Geography & Environmental Management at University of Waterloo
Waterloo, ON, CA**

Leading international scholar on food security, food system change, and COVID-19 impacts on the food supply.

Biography

Steffanie Scott is co-investigator on a study of the food security consequences of COVID-19 and countermeasures in China and Canada. Dr Scott's reputation as a leading international scholar on food security and food system change in China is confirmed by the recent release of her co-authored book, *Organic Food and Farming in China: Top-down and Bottom Up Ecological Initiatives*. She led the Canadian Association for Food Studies (2012-14) and was inaugural co-chair of the Waterloo Region Food System Roundtable. She co-founded the LinkedIn group, "China's Changing Food System" and teaches on sustainable food systems and development studies. Steffanie is principal investigator for several research projects on China's Changing Food System, Ecological Agriculture in China, and Our Food Future--Waterloo Region.
