

Stephanie Majewski

Associate Professor, Department of Physics at University of Oregon

Eugene, OR, US

Expertise: High energy particle physics at the CERN ATLAS experiment

Biography

Stephanie Majewski is a particle physicist who is actively involved in the search for dark matter and supersymmetry. She was part of the UO's team involved in the quest for the Higgs boson at the Large Hadron Collider near Geneva, Switzerland. Majewski also has had active roles in upgrades to the ATLAS detector at the collider site. Before joining the UO faculty in 2012, she served as a postdoctoral researcher at the Brookhaven National Laboratory. Majewski's research is supported by a five-year early career award from U.S. Department of Energy that runs through 2019.

Industry Expertise

Research, Writing and Editing, Education/Learning

Areas of Expertise

High energy physics, ATLAS experiment, Supersymmetry, Physics beyond the standard model
