Washington D.C. Metro Area, , US

Healthcare Consulting, Coaching and Debriefing at <http://www.MDRN.Consulting>

Biography

Analytical and compassionate healthcare executive – with extensive patient experience & family engagement abilities as well as program development and process improvement expertise – offer proven track record of leveraging patient experience, customer service, communications, and training & development strengths to improve quality of care and processes throughout hospitals and healthcare systems.

Background: 20+ years of experience gained across emergency departments and hospitals – encompasses program design, coaching, service excellence and staff education proficiencies. Career highlights include growing productivity of \$2 million Emergency Department (ED) by 20%, re-configuring Emergency Department crisis programs internally at substantial cost savings to employer, training total of 500 nurses and non-clinical staff, and serving as consultant to government agencies

Patient Experience & Family Engagement:

- * Advanced knowledge of patient satisfaction surveys and patient experience survey tools supporting all aspects of improving patient/family experience and satisfaction scores.
- * Experienced with implementation and evaluation of an aligned curriculum for teaching patient experience and customer service expectations.
- * Adept at assessing situations quickly and compassionately to assist health care professionals in fast-paced, demanding and constantly changing hospital settings to foster patient relations and patient experience systems and processes.

Communication:

- * Excellent written, verbal and interpersonal communication skills including active listening, redirection, conflict resolution / negotiation, complaint management, crisis intervention, counseling and ability to elicit information from poor or evasive communicators
- * Highly skilled with building rapport with patients and families quickly and tactfully to address concerns & resolutions with the goal of gaining patient and family members' trust and enhancing patient experience and family centered care.
- * Expertise in coaching and providing point-of-service coaching to managers and health care teams to identify opportunities to create a seamless patient and family experience and / or service recovery gained from visiting with patients and families on a daily basis.

Training and Development:

- * Dynamic public speaking, coaching and training skills.
 - * Skilled in assessment of training needs, information design, facilitation & staff education and support for healthcare teams
-
