

Travis S. LaBlanc, P.E.

Senior Hydrology/Hydraulics Engineer at Global Water Experts

Phoenix, AZ, US

Hydraulic Structures Design and Construction

Description

19 years of multi-disciplinary civil/environmental engineering and project management experience in hydrology/hydraulics design, reclamation design and construction, site characterization and remediation investigations/feasibility studies.

Industry Expertise

Civil Engineering, Environmental Services, Mining and Metals

Topics

Stormwater Containment/Diversion Channel Design & Construction, Spillway Drop Structure Design & Construction, Discharge Piping Design & Construction, Utility Relocation/Corridor Design & Construction, Mine Waste/Industrial Structures Remediation Design & Construction, Surface/Subsurface Water Management/Interception Structures, Erosion Control Facilities Design & Construction, Streambank/Floodplain/Impoundment Structures Design & Construction

Affiliations

American Society of Civil Engineers

Education

University of Wisconsin-Madison

B.S. Civil Engineering
