Being An Adult at Work

Imagine if people at work owned their behavior and refused to blame or complain. Imagine if everyone was self reflective and understood their impact on others. How powerful and successful would your workplace be. There is an "inner adult" in each of us. Rather than bringing out the inner child we would be better off cultivating our inner adult.

The New Matrix Management

The new matrix management begins with a mindset of unconditional accountability, partnership with others, and being vision and value driven. This is a departure from the parent child relationship between manager and employee in traditional organizations. The purpose of this interactive presentation is to enhance the abilities of people to build strong cross-functional partnerships that will optimize the work of the organization.

Spiritual Intelligence

Spiritual Intelligence is the choice between ego and Spirit (higher self, God, Inspiration, Intuition, whatever you call it.) In this presentation you will have the opportunity to explore and assess your spiritual intelligence.
